**C. PRECAUTIONS BEFORE USE**

1. The workplace must be well-ventilated.
2. The necessary tools should in no way put the patient at risk.
3. Encourage the patient to assume a comfortable position and ensure that you yourself are in an easy working position.

**D. WORKING PROPERTIES**

The scissors are meant for cutting material in a non-sterile environment and should under no circumstance be used for anything else but cutting low temperature material.

The scissors have sharp edges.

**E. MAINTENANCE AND WASTE MANAGEMENT**

Clean the scissors with lukewarm and soap and use a cloth to dry.

**F. ADVICE FOR THE PATIENT**

**Warn the patient that scissors are sharp.**

**G. STORAGE**

It is advised to store the scissors in a dry place at a temperature of min. 10°C (50°F) and max. 30°C (86°F) and in the original packaging.
